

## Gr K Zoology Activity- Fur, Scales, and Feathers

By Katja Kwaku and Anni Wang

Presented to Gr K students at Natchaug Elementary School in Willimantic, CT on 12/01/2021

### Part 1: Slide show

For each slide, show a variety of local animals that students would recognize

1. Zoology- the study of animals  
Zoología- el estudio de los animales
2. Mammals- fur!  
Mamíferos - ¡pelo!
3. Reptiles- scales!  
Reptiles- ¡escamas!
4. Birds- feathers!  
Pájaros- ¡plumas!

### Part 2: Craft

1. Give students paper and ask them to draw an animal of their choice. You can list example animals to limit them to mammals, reptiles, and birds. Rabbits were an especially popular choice when we did this activity.
2. Ask students if their animal is a mammal, reptile, or bird, then ask them which texture (fur, scales, or feathers) they should get to embellish their drawing.
3. Give each student the appropriate texture to glue (with a glue stick) onto their drawing.
